28 YEARS

-OF---

Successful Merchandising.

For 28 continuous years we have been in Pueblo supplying the wants of man and boy, in everything wearable. In all these years we have never failed to correct an unsatisfactory purchase when it was brought to our notice.

In all these years we have never asked for a dollar's worth of patronage from anyone without giving assurance of the lowest price possible for the quality of merchandise sold.

Wholesale and Retail.

Wholesale Jobbers and Retail Dealers in Boys' and Men's Clothing, Hats, Caps, Shoes, Furnishings, Blankets, Comforts, Traveling Bags and Trunks.

Name of Seeds or Other Articles Wanted. Price. Lba 02. Packets.

One of the very best Melons for home and nearby markets. Where known it is taken in preference to all others. It is an oblong melon of good size, green skin, bright red flesh, and white seeds.

Price, oz. 10c; ¼ 1b., 30c; 1b., \$1.00.

KLECKLEY'S SWEET.

This is without doubt one of the very best melons of recent introduction. Shaped very much like the Rocky Ford, but a larger melon; the skin is a very dark green, flesh bright red, rind very thin and hard, making it a good shipper. A fine grained melon and solid to the core.

999999999999999999

Price, oz., 10c; ¼ 1b., 30c.; 1b,, \$1.00.

Danish Ball Head

Cabbage.

THIS splendid variety is remarkable for its solidity, and grand keeping qualities. The heads are of medium size, and for fall and winter it is the best. The seed we offer is the Genuine DANISH BALL-HEAD.

Price, oz., 25c 1/4 lb., 70c 1 lb., \$2.50

HARD AS ROCK

THE GREATEST
WEIGHER IN THE
SMALLEST SPACE.

SUGAR BEETS

-AND-

Mangel Wurzel.

FOR STOCK FEED.

Sugar Beets and Mangel Wurzel have proven a great success among our most progressive ranchmen, and especially to the dairymen around Pueblo. Mangel Wurzel yield from 20 to 40 tons per acre. Sugar Beets from 12 to 30 tons per acre. Some prefer the Sugar Beets for hog feed.

CULTURE.—As all Mangels require a deep soil in order to grow well, plow and subsoil from a foot to eighteen inches, and apply plenty of rich stable manure. Sow from April 10 to last of May, 4 to 5 lbs. to the acre, in rows 18 inches to 2 feet apart, and thin to 18 inches in the rows. As soon as the frost occurs dig the crop. In order to be well preserved for gradual consumption during the winter, Mangel Wurzel should be heaped to a height of four to six feet on a dry sloping situation, cover lightly with straw, hay or corn stalks and enough soil to keep the covering from blowing off. As soon as this soil becomes frozen, cover all about eight or ten inches deep with more soil. By following up this gradual process of covering, all danger of heating will be obviated and the roots will keep in perfect order.

Price, Mangel Wurzel. Mammoth Long Red ..per lb., 30c....10 lbs , 25c Mangel Wurzel, Yellow Globe......per lb., 25c

Golden Tankard.

Valuable yellow-fleshed variety, said to contain a large per cent of sugar; very productive; matures early. Per lb., 30c.

FERN-LEAFED BEAUTY.

DAHLIAS

Show and Fancy Varieties.

CULTIVATION. While the Dahlia is one of the easiest of all flowers to cultivate, it by no means follows that it requires no attention. In fact, no flower cultivated will give such a generous response to good cultivation as the Dahlia. Deep and thorough stirring of the soil during the early growth of the plant is indispensible to success. The Dahlia, with but few exceptions, should be given an open, sunny situation, for at least a portion of each day. It is a rank feeder, and should be given rich soil and kept free from grass and weeds. Cultivation should cease when the blooms appear. After this a liberal supply of water in dry weather will be all they require. Plant the bulbs two or three feet apart, according to the size and habit of the plant. The bulbs should be planted about four inches below the sur-

face of the ground, laying the bulb on its side. Varieties growing three feet in height should be tied to stakes to prevent falling. Plant about the first of April in this latitude.

DOUBLE VARIETIES,

Price, 15c each, \$1.50 per Dozen. Set of 15 for \$1.75.	
John Benneth. Buff orange, shaded to crimson. Flowers very large and full A. D. Livoni. Rich Pink. Finely formed. A very handsome flower Camel flora. Pure white. A perfectly formed flower of medium size Mikado. A bright red, banded with pure white, quite double and full to the center; one	3
of the handsomest of its color	3
Beauty. (New) Purest white, almost as round as a ball, very free and full to center. Miss Dodd. Purest yellow. Of exquisite form and color A remarkably handsome flower. E A. Tunnell. Bright red, shaded and striped with pure white, produced on very long	
stems, no two flowers with just same markings Kaiser Wilhelm. One of the grandest flowers in cultivation. Of immense size and perfect form. Deep yellow, tipped and shaded with cherry red.	5
Fern Leafed Beauty. (Fancy.) This pretty little dahlia is one of the most useful of all 'he dahlia family, as both flower and foliage are very decorative. The flower is quite double, and each scarlet petal is divided by a broad stripe of pure white, while the foliage has a fern-like appearance. Very attractive	
Viss Thatcher Sulphur yellow. Producing its flowers well above the foliage. Very productive	3
Orine Emerson. A very handsome flower, borne on long stems. Color rich, dazzling red. shaded light cherry red	5 3
Prince Bismark Purple lake, a most pleasing color; very fine form; one of the best Lady Mildway. A very beautiful flower. White ground shaded to pale lilac. Very large and full. A free bloomer	

CACTUS VARIETIES.

One to Three Strong Germs to Each Bulb.

The Cactus Dahlias are comparatively new. They are distinguished from the ordinary type by their broad, flat petals, which are sometimes twisted. They possess all the richness of color found in the other types, while they surpass them in point of usefulness. Florists now use the cactus types almost exclusively for cutting and decorative purposes

Price, 15c each, Set of 15 fer \$1.50.

DAHLIAS.—(Continued

Marchioness of Bute. A delicate soft pink. Very pretty.	
Grand Mogul. Intense scarlet, variegated with pure white, frequently a solid scarlet.	
A pure cactus of large size. Extra fine	4
Lyndhurst Scarlet or vermillion. Distinct in its color from all others. A noble flower	
Lucile Color, pure sulphur yellow. Double to the center	
Glorisa. Long, narrow petals like a chrysanthemum; color, rich in scarlet; one of the	
best cactus types yet produced	4
Mrs. Peart. This is one of the queens among dahlias and the best of its type ever in-	
troduced It has the appearance of a white chrysanthemum with its long pointed	
petals Its color is a delicate creamy white. A companion for Glorisa	3
Major Harkins. A very large bold flower of the brightest, deepest red. Petals long	
and somewhat irregularly arranged, giving it an appearance of gracefulness; a	
noble flower	
Mrs Hartong. Very large and of exquisite form. Color, light fawn, suffused with	
pink; very handsome	
Matchless. Its petals are long and pointed and very evenly arranged. This variety	
has been awarded eighteen first class certificates in England alone. It possesses	
all the qualifications of a first class variety. Color, almost a black maroon	
Earl of Pembroke. A grand dahlia, looking more like a chrysanthemum than a dah-	
lia. Its petals are very long and narrow; every flower is perfectly formed and	
quite full to the center. Color rich dark purple lake	
Prince of Orange. This dahlia is a marvel of productiveness, the whole plant being	
nearly hidden with the large, well formed flowers; rarely, if ever, is a deformed	
flower seen. Color, a blending of apricot orange and bronze	
· · · · · · · · · · · · · · · · · · ·	3
Dahlia Roots, 20 Cents per Dozen extra, if by Mail.	

Rocky Ford Gantaloupe.

THE ABOVE CUT is a good representation of the shape of this noted melon, although not full size.

It requires the very best of melon soil; is very productive, one acre having produced as high as 300 crates of marketable melons (45 melons to crate).

Our seed of this variety is of the best strain and selection. When our present stock is exhausted, we will fill no more orders.

PRICE: Ounce, 15c; quarter pound, 40c; pound, \$1.00.

Lawn Fertilizer

To be used on the lawn in the spring and summer; gives immediate results; soluble; it does not disfigure the lawn like stable manure. One pound will cover about 15 feet square. Ten pounds, 40c; fifty pounds, \$2.00; 100 pounds, \$2.50.

Garden Truck Fertilizer

For garden truck and plants, none better. Use in hot beds or greenhouse, and when cabbage, celery and other plants are set out in the open ground; use about one tablespoonful to each plant when setting out; be sure to have fertilizer well mixed with soil. In hot bed and greenhouse, use about one pound to a sash (3x6 ft). Price, 1 lb., 5c; 10 lbs., 40c; 50 lbs., \$1.50. Special price in ton lots.

Bone Meal

Used extensively for roses, grape vines and shrubs; also used for chicken feed. Price, 1 pound, 4c; 10 pounds, 35c.

Rose-

This is a combination bug killer and fertilizer for house plants. Price, package, 25c.

Haines' Plant Food

For potted and other plants. Price. package, 25c.

POULTRY SUPPLIES.

Ground Oyster Shell. Fine or coarse. 1 lb., 3c; 50 lbs., \$1.35; 100 lbs., \$2.50. Granulated Bone. 1 lb., 4c; 10 lbs., 35c. Granite Grit. 1 lb., 3c; 10 lbs., 20c. Dried Meat and Bone. 1 lb., 5c; 10 lbs., 35c. Blood Meal 1 lb., 5c; 10 lbs., 40c. Egg Food (Pratts). 26 oz. package, 25c; 5 lb. package, 60c. Poultry Cure. For sick poultry; trial package 10c. Roup Pills. Per box, 25c. Stoneware Drinking Fountain. ½ gallon. 20c; 1 gallon, 25c. Nicto-Napto. (Death to lice). The very best thing out. Per package, 25c; 5 lb. can, \$1.00. Haines' Black Powder. Cholera remedy. Can. 25c. Nest Eggs. Per doz., 25c. and 25c. Leg Bands. Per doz., 20c and 25c.

If sent by mail, 16c extra per pound; by express or freight at purchaser's expense.

FLOWER SEEDS.

Flower Seeds sent by mail on receipt of price. Full culture directions on each pagkage. In our list we will find A, B or P to each variety. A for annuals, which grow, bloom and die the first year from seed. B for biennials, bloom the second year from seed, then die, though many, if sown early in spring will flower the first year. P for perennials, usually bloom the second year from seed, and continue to grow and bloom for many years; some will also bloom the first year if sown early.

Ricinus, or Castor Oil Plant, A. A rapid growing foliage plant with large palm like leaves; just the thing for subtropical effect on lawns, and a shield for unsightly places. Package, &c.

Flowering Sweet Peas.

Preparing the Soil. Select a warm, sunny place, and if possible, prepare the ground in the fall by a liberal application of well rotted manure. If your soil is adobe, use old coarse manure and fine manure in the spring. Place the fine manure as much in the trenches as possible.

Sowing the Seed. After you have the soil well prepared, make a trench six inches deep, sow the seed about two inches apart in the trench, cover two inches. As the vines grow, draw the earth up to them until the ground is level or slightly lower between the rows. Another way: Make two trenches six inches deep, from six and eight inches apart, and the double rows from eighteen inches to two feet apart, making the ground lower between the rows.

A Few Hints. Prepare the ground and get the seed in as early as possible.

Have the ground moist (not soggy wet) when you sow the seed.

Do not irrigate until the plant is through the ground, sprinkle rows to keep the ground moist.

When nicely started do not let them want for water; sprinkle the vines two or three times a week, but not in the the heat of the day

A small quantity of fertilizer mixed with the ground in the bottom of the trench before planting is very beneficial and the plant appreciates mulching.

Keep all flowers cut off if you want continuous bloom. When they go to seed that ends flowers.

Do not use fresh manure.

Some of the Most Satisfactory Varieties Grown. EACH, 10 CENTS PER OUNCE.

Adonis; carmine.

Apple Blossom; bright pink and blush.

Black Purple.

Boreatton; bronze crimson and purple. Captain of the Blue; bright purple and pale

blue.

Cardinal; crimson scarlet.

Miss Blanche Ferry; pink and white.

Invincible Scarlet.

Mrs. Sankey; pure white, largest size, profuse bloomer.

Orange Prince; bright orange pink. Primrose; pale primrose yellow. Prince of Wales; white, blue striped. Splendor: bright rose flushed crimson. Queen; pink with with mauve wings Vesuvius; dark red.

Lottie Eckford; rose and white, edge blue. Countess of Randor; delicate layender.

Emily Henderson; pure white.

Fire Fly; very bright crimson scarlet. Gray Friar; (new) delicate mauve color, tinged with darker shades

Eckford's Hybrids; all colors, mixed.
Katherine Tracy; (new) soft brilliant pink.

OUR MIXED SWEET PEAS ARE FINE, NONE BETTER.

Pierce Seed Company

RETAIL LIST OF

NO. 229 NORTH UNION AVENUE,

PUEBLO, COLORADO.

FIFTEENTH ANNUAL CATALOGUE

---OF---

THE PIERCE SEED COMPANY.

RELIABLE SEEDS.

The seeds that we offer this season are from the very best growers, and varieties that have been tried in this climate and are known to be successful by trial. We will be pleased to receive your orders, which will have our prompt attention.

We handle no seeds on commission.

When in the city ask for The Pierce Seed Company's Store. You are always welcome.

TERMS: CASH WITH ORDER.

NAME AND ADDRESS—We enclose a blank Order Sheet, and extra care should be taken in the name and address.

OUR WARRANTY—A great many ask us if we warrant our seed to grow. We do not in any respect. We believe the seeds we offer are unsurpassed in quality. Experience has proven that the same seed sown under different circumstances, and by different parties, produces different results, showing that a dealer, if he warrants seeds, must put such a price on his goods as to cover a certain per cent of loss, and the guarantee does not cover the cost of crop lost.

Among the many causes of failure are: The soil may be unfavorable to the variety sown; or, the soil may be all right, but the weather such as to destroy the germ in the seed.

We prepay postage on vegetable or flower seeds in ounce packet orders; by the pound if sent by mail, must be accompanied with eight cents for each pound so ordered.

Money sent must be by Money order, Registered Letter or Draft.

Of all seeds quoted in 100-lb. lots, 25 pounds will be furnished at the same rate per pound.

We will sell packets of any seed quoted at 5c and 10c each.

Hoping to hear from you, we are,

Yours respectfully,

THE PIERCE SEED CO.,

PUEBLO, COLORADO.

≯≯≯€€€€

Summer Flowering Bulbs

Should be put in the ground as soon as the season will permit. A light covering of old straw or litter will be a good protector from early changeable weather. If you have never tried flowering bulbs, try them this season, as they are much more satisfactory than growing flowers from seeds.

MADERIA VINE. A beautiful showy vine. 5c each.

Double Pearl Tuberose

Height twenty to twenty-four inches. Flower double and large, and very fragrant. Price, extra size bulbs, 10c, three for 25c, postpaid.

Dahlias

SEE COLORED PAGE.

Cannas

The most desirable bedding plant; we offer some of the most popular varieties. Price, 10c each, per dozen \$1.00.

AUSTRIA. Green foliage of remarkable strong growth; flowers very large, color pure yellow with light blotches of red in the throat.

ALPHONSE BOUVIER Rich crimson; height about 6 feet.

ENGDALE. Bright red; height about 4 feet.

FLORENCE VAUGHAN Yellow ground thickly dotted with red height about three feet.

MAD. CROZY. Vermillion banded with gold; height about 4 feet.

PAUL MARQUANT. Deep salmon; height about 3 feet.

GLADIOLI x

Pink, Red, Yellow, Variegated and Light Shades.

Price, 5c Each; 50c per Dozen.

PEONIES *

OLD RED

Flowers of a bright scarlet crimson, and quite double and globular; very early; only one bloom to the stalk; rare and fine.

EARLY ROSE,

Early pink variety; blooms right after the Old Red; the flowers are large and in clusters.

HUMEL

A pink Peony; very full and double; very large and showy; one of the latest in bloom. It wants to be mulched heavily in order to bring its flowers into perfection.

LATE ROSE.

Similar to Early Rose, only it blooms later in the season. It is a fine rose-scented flower.

WHITE [with Golden Center.]

This is not a very large peony, but a very nice one. It is white outside with a cream color in the center.

Price 25c Each; Set for \$1.00.

© CATALOGUE OF SEEDS.

ASPARAGUS.

Sow in drills one foot apart, and when the plants are four or five inches high they should be thinned out so that the plants will be nine inches apart in the rows. Keep the weeds down thoroughly the first year, else they choke down the young seedlings. The deeper the soil and greater the abundance of manure that is used, the greater the crop—The experience of Colorado gardeners is that Asparagus can be cut from one to two years earlier than in the east. It is the most profitable crop grown in the market

Columbian White Mammoth.—This is a very large white asparagus; it furnishes white shoo's which stay white as long as fit for use. Seed produces 80 to 90 per cent of white plants

oz ½ lb. 1 lb.

duces 80 to 90 per cent of white plants 10c 30c \$1.00 colossal.—A standard variety..... 10c 25c 50c

Conover's Colossal.—A standard variety..... 10c 25c 50

We Can Supply Asparagus Roots in Season.

20.

BEANS.

Select light, warm soil; plant when danger of frost is past in spring, about two feet apart; seeds about two inches apart in drills; cover one inch deep.

DWARF OR BUSH.		
Improved Red Valentine.—Green pods; two weeks earlier than any other variety of Valentine; nearly whole crop can be picked at one		Per cwt.
time; desirable for market gardeners	\$0.20	\$15.00

renow those manger dance, good weeper			

BRUSSEL SPROUTS.

Improved Half Dwarf-The very best and surest strain....oz., 20c 1/4 lb., 60c; 1 lb., \$2 00

CABBAGE.

Our cabbage seed is the finest Long Island grown. Cabbage will thrive on any good land. Plow deep and manure freely. The early varieties are sown in hot beds in February; the late sorts in the month of June. Plant in rows about twenty inches apart, two feet between the rows.

See Special Prices for Plants.

Excelsior Flat Dutch.

Early Selsey Wakeheld.			
Early Jersey Wakefield. (True seed)—The most popular and valuable early variety; sure to head; good size; pyramidal in shape			1b. \$3 00
The Charleston, or Large Early Wakefield—The same shape and character as the Early Jersey Wakefield, but larger	.25	.70	2.5)
Early Cannon Ball—The hardest heading of all early varieties	. 20	.60	2(0
Fotler's Improved Brunswick—The earliest large heading drumhead; heads large, tender, solid and fine flavored	.15	.50	1.50
Deep Head—an excellent cropper; sure to head	. 15	.50	1.50
Sure Head-All head and always sure to head; late variety	.15	.50	1.50
Premium Flat Dutch A fine strain of Flat Dutch; extensively grown for fall and winter use	.15	.50	1,50
Excelsior Flat Dutch—One of the best Flat Dutch; late sort as can be grown; is a good keeper	.20	.60	2.00
All Season - A valuable market gardener's variety; heads very hard and solid; round, flattened on top; nearly as early as Early Summer and much larger; it is called All Season because it is as good for autumn or winter as it is for early	. 15	.50	1.50
Market Gardener's No. 2—One of the best second early or summer sorts; grown very extensively by a few market gardeners near Pueblo and considered a very profitable variety; the heads are solid and of medium size.	. 30	1.00	3 00
Stone Mason—A very hard, solid variety; grown quite extensively in the foot hills and mountains	.20	60	2 00
Danish Ball Head—See colored page. Henderson's Succession-Whether grown as a second early. or main or late crop. it has no equal; as second early it is a few days later than Early Summer; heads are slightly larger, more perfect and uniform in size; handsome color,			
of the finest quality; a good keeper Savoy-Netted - This is the finest of the savoy class; heads large, very solid	.15	.50	12,50
and compact	. 20	.60	
Red Dutch Pickling—Very valuable for pickling	. 20	.70	
Savoy. See Special Prices for Plan	its.		

CARROTS.

Sow in early spring, in rows from twelve to fifteen inches apart; requires deep, rich, mellow soil; thin to about four inches apart.

Imp. Long Grange.

Half Long Scarlet Half Long Danvers

A STATE OF THE STA	oz.	1 lb.	lb.
Small French Forcing—the earliest variety; mostly used by gardeners		-	
for forcing	.10	.25	.75
Guerande, or Ox Heart-A new French carrot; it is intermediate between			
the half long and horn varieties; or most beautiful shape and color	.10	.20	.60
Early Scarlet Horn-A fine variety of medium size; fine flavor			.60
Half Long Scarlet -(Stump Root)-An excellent variety, and good for			
shallow soil	.10	.20	.60
Early Half Long Danvers—One of the most productive and best for field			
culture; sweet and tender	.10	.20	.60
Improved Long Orange—The standard field Carrot	.10	.20	.60
White Belgian-When young the roots are mild and delicate, and when			
full grown are valuable for stock	.10	.20	.60

CAULIFLOWER.

Requires the same treatment and culture as cabbage.

Early Snowball Cauliflower—The Earliest. The Surest Header. The Most Profitable. The best variety for either the market or family garden. Early Snowball Cauliflower is superior to all others. First—Because it is the earliest of all cauliflowers,

as has been conclusively shown season after season. SECOND-Because under the condition of an ordinary favorable season, nearly every plant will form a perfect snow white head. Third—For the reason that its growing, compact habit enables one-third more to be planted on the same space of ground than can be done with any other variety. It does equally well for late planting.
Price, package, 25c; quarter ounce, 90c; ounce, \$3.00.

Extra Early Dwarf Erfurt-First quality; extra early; dwarf variety; compact growth; short outside leaves

Quarter ounce, 75c; one ounce, \$2.00.

See Special Prices for Plants.

CELERY.

Sow seed in hot bed; transplant four inches apart when three inches high, in finely pulverized soil; water and protect until well rooted, then transplant into rows of five or six

White Plume Celery.

feet apart, either on surface or well manured trenches a foot in depth; set the plants from six to eight inches apart; to blanch, draw earth around the plants from time to time, taking care not to cover top of center shoots

White Plume Celery-The earliest, handsomest and easiest grown, and undoubtedly the earliest celery grown in Colorado The peculiarity of this variety is that its stock and portions of its inner leaves are white so that by closing its stalks, either by tieing them up with matting or by simply drawing the soil up against the plant and pressing it together with the hands, and again drawing up the soil with the hoe or plow, so as to keep the soil that has been squeezed against the celery, in its place, the work of blanching is completed.

Price, ounce, 20c

Quarter ponud, 60c.

Pound, \$2.00.

Golden Self Blanching-Similar to the White Plume in its self-blanch-07 lb. ing characteristics, but of a deep golden yellow color; very solid and .25 of a rich nutty flavor75 \$2.50

CELERY—Continued.		
White Walnut-Dwarf habits; solid and heavy, and has a peculiar rich walnut	oz.	₹ 1b.
flavor		.50
Henderson's Half Dwarf—A new white variety; when blanched it is a yellowish white; is entirely solid and fine flavored	.20	.50
Henderson's New Rose—As its name implies, it is a rose colored celery; very solid, and of a rich nutty flavor; a very ornamental celery on the table	.20	.50
Giant Pascal—Late; very large ribbed celery; superior keeping quality; blanches very easily and quickly; the heart is golden yellow; the stocks are large, thick and solid	20	.50
Large Praigue Celeriac, or Turnip Rooted—The root of which is turnip shaped; is cooked or sliced and used with vinegar; more hardy than celery		.00
CHICORY.		
Large Rooted—The dried roots of this variety are used as a substitute for coffee	.15	.30
CORN.		
Drop in hills three feet apart and leave four plants to the hill. Plant at intervals from early spring to mid summer		
Extra Early Adams—The earliest white corn; small ears	lb.	cwt. 8.00
Early Adams—A very early market variety; ears good size but short		8.00
White Cob Cory—(New)—The earliest sweet corn grown; ears of fair size; very sweet; it matures for table use in fifty-two days; try it		10.00
Cory—Red Cob		10.00
Early Minnesota—A very early variety; quick growth; medium size cob		10.00
Stowell's Evergreen—Hardy and productive; very tender and sugary; remaining a long time in condition for boiling		10.00
Triumph—Said to be the largest late variety: flavor rich and sweet; largely grown as a market sort		10.00
Black Mexican—Seed black; a very sweet, tender variety, and considered the most sugary of all		10.00
Country Gentleman—A new sweet corn; medium early; very productive, small cob; kernel shoe peg shaped; retains its delicate tenderness and flavor even		
when a little old	. 15	10.00
CUCUMBERS.		
Drop in hill four to six feet apart, as soon as the weather becomes settled as scatter eight or ten seeds to the hill; cover half an inch deep; pat it down with a l	10e.

Timothy.

Blue Grass.

Red Clover.

TIMOTHY.

Timothy is grown more extensively every year, and has proven to be one of the best crops for hay in the foothills that can be sown. Sow twenty to twenty-five pounds to the acre. Market price.

BLUE GRASS.

Kentucky Blue Grass, fancy cleaned, used principally for lawns, and sown in the foothills for pasture it does remarkably well. For lawns, use one pound to ten feet square; for pasture about twenty eight pounds to the acre. Market price.

• ORCHARD GRASS.

Extremely hardy, one of the earliest to start in the spring, makes good pasture and an excellent hay. A great many Sow Orchard Grass with Alfalfa in the foot hills. Sow about twenty pounds to the acre. Market price.

RED TOP.

We carry both Clean and Fancy grades. Thrives best in low land, making a very firm sod Does well in Colorado, and is grown quite extensively in the foot hills. Sow from eighteen to twenty pounds to the acre. Market price.

RED CLOVER.

Red Clover is used more every year, and while not as productive as Alfalfa, it is sown by a great many in orchards. Twelve to fifteen pounds to the acre. Market price.

Use Fancy Kentucky Blue Grass and White Clover for Lawns.

ONION SETS.

[Market Price.]

Per lb.		Per 1b
Yellow Bottom Sets	White Bottom Sets	

WHITE DUTCH CLOVER.

Used with Blue Grass for lawns, makes good sheep pasture and is a fine pasture for bees; must be sown where it will have plenty of moisture. Market price

ALFALFA, OR LUCERNE CLOVER.

A valuable forage plant, and is becoming more extensively used as its worth is known. It requires a rich deep soil The sun must have free access to Alfalfa, and the ground must be rolling to enable the water to pass off readily. A wet underground is fatal to the plant. A great many sow in connection with oats. The latter should be sown first and harrowed in, and then sow from twenty to twenty-five pounds to the acre of Alfalfa seed, and roll the ground well. It is best when cut in bloom. It will not shed rain like other hay, and must be either stored in sheds or covered with canvas. After being cut, Alfalfa should lie until it wilts, and then cured in the cock, else the leaves become dry, crumble off and the best part of the crop is lost. It is an all round feed for all kinds of stock. Alfalfa pasture is the very best for all kinds of stock. Market price.

BARLEY.

Hulless and Beardless—It is very productive and does equally as well in high and low altitudes. The straw is of good length and strong, the heads look very much like wheat. This is not a brewing barley but is used for feeding stock. Our seed is Colorado grown. Market price.

Chivalier (Scotch)—Two rowed bearded; one of the best brewing barleys grown; straw a little longer than the common run of barley; stands up well; yield from thirty to forty bushels to the acre, and the heaviest growing barley grown. Market price,

FIELD CORN.

[Colorado Grown.]

Our field corn we have grown for us in Pueblo county, and we find does much better than corn shipped from the east, so order early.

White Australian Corn—It is a very early flint corn, used by a great many for roasting ears. For those who have no water for irrigation, this is one of the best varieties. Very fine for hominy.

White Dent—This is a very fine white corn and preferred by some to the Yellow Dent. Market price.

Yellow Dent-A good corn for general use. Market price.

Bloody Butcher, or Calico-We have a small quantity of this variety for sale this season. Market price.

POP CORN.

White Rice Pop Corn—One of the very best varieties grown; a sure cropper, and always finds ready sale. Market price.

Queen Golden—This is a very fine pop corn; a delicate yellow golden; pops out white and large; is very tender. Pound 10c.

RUSSIAN SUNFLOWER.

Raised extensively for chicken feed, does well in low spots. Pound 15c.

BUCKWHEAT.

Japanese—(New)—The kernels of this new Buckwheat are nearly twice as large as the common kind; it branches more and need not be sown as thickly. It is a very heavy cropper and less apt to blight than other varieties. Market price.

Silver Hulled-Market price.

OATS.

Improved Black Tartarian—(Colorado grown)—One of the very best black oats grown, and especially in the foot hills of Colorado. Market price.

White Banner—A good solid white oat, very plump, one of the very best to yield. A ranchman that has grown White Welcome and a great many of the new oats, says this is the finest he has ever grown. We have only a few thousand pounds of this variety, so order early. Market price.

SPRAY PUMPS.

HOT BED SASH.

We Prepay Postage on Vegetable or Flower Seeds in Ounce or Packet Orders.

Eight Cents Must Accompany Each Pound Order.

Puller, 60 cents.

Attachments extra Plows, \$1.25. Rakes, \$1.00. Leaf Guards, 60 cents. Scroll Knives, \$1.00. Onion

New Model Seed Drill.

TRY THE LATEST AND BEST.

ITS FEATURES: Regulation of Discharge - Drills of similar construction are usually provided with a series of holes of various sizes, through which the seed is passed, which of course do not always give an opening of exact size required. The operator is usually told, in substance, that "if one hole don't suit, try another." This adjustment in the Model is accomplished in a very simple and effective manner by use of a slide with a pea-

stantly adjusted to the size indicated by the index, or to a hair breadth variation between-a vital point in a perfect seed drill. The Indexor indicator-is plain, convenient and reliable. It is placed in open sight immediately under the eye of the operator and can be quickly adjusted to the slightest variation desired. As the names of the principal seeds are plainly shown on the Index itself, it is not necessary to refer to any table of reference. Cut-off—The flow of seeds can be instantly stopped by a swinging cut-off, conveniently operated by a cord and ring on handles Marker—Is simple, easily adjusted and firmly held. Broad Wheel—The main wheel is of large size and unusual width, preventing its sinking into soft dirt. Covering Roller-It is at-

tached by swinging frame, enabling the operator to roll lightly or otherwise, by varying the pressure on the handles. Opening Plow—Is of steel, adjustable in depth Each cr. ii crated and perfectly packed for shipment. Packed weight about 40 pounds. Price, \$8.00

Lang's Hand Weeder, 25 cents each.

Steel Dibber. For setting out plants, 25 cents.

Garden Trowel, Solid steel, 50 cents.

DOVETAILED HIVE.

HIVE BOTTOM.

HIGGINSVILLE COVER.

DOVETAILED SUPER.

The

Dovetailed

Hive.

The standard hive, eight frame, and 1½ stories. The body consists of a plain box, 18¼ inches long, 12½ inches wide, and 9½ inches inside measure, made of ½ lumber and dovetailed at the corner. It has eight self-spacing Hoffman brood frames, metal rabbits and division board.

The super consist of a box, one-half as deep as the hive, which have for their bottom pattern slats, cut the same size and shape as the sections; wood separator and nails go into this hive.

Price, 8 fr., 1½ story, each......\$1.35 "8 fr., 1½ story, 5 hives...... 6.00

" 8 fr., 1½ story, 10 hives.....11.00

Hives are put up five in a crate, and weigh about 140 pounds per crate.

tions

BEE FIXTURES.

ALLEY'S QUEEN AND DRONE TRAP.

This will automatically catch and cage the drones in an apartment by themselves. They can then be carried to another apiary, or be destroyed as circumstances require. The trap will also catch the queen when a swarm issues, and hold her confined until the apiarist can give her his attention. As she cannot get away, the bees will in all likelihood return to the hive. Or if you happen to be on hand when the swarm comes out, the trap with the queen can be placed among the flying bees. The latter will probably cluster about the queen and they may then be hived. Price, 50 cents; by mail, 15 cents each extra.

SPUR WIRE-IMBEDDER.

DAISY FOUNDATION ROLLER.

A very neat little tool for fastening the foundation to the top bar. Price, 15 cents. By mail, 18 cents

THE BINGHAM SMOKER. CONQUERER.

This smoker has long since been recognized as one of the leading smokers in the market, and has received the hearty endorsement of many of the most prominent bee keepers. It is well made, has many excellent qualities, and is as near a perfect article as can be had for the money Price, \$1.25.

THE CLARK SMOKER.

This is a cold blast smoker; it is well made, of good size, cheap and serviceable. Price 60 cents.

CORNEIL SMOKER.—Price \$1.00; by mail, add 20 cents each for smokers.

BEE FIXTURES.

THE PORTER BEE-ESCAPE.

No apiarist can afford to be without bee-escapes more than he can afford to be without a bee smoker. In taking off honey it is the greatest labor saving device that has been introduced in late years. It avoids shaking heavy supers to get the bees out; does away with the necessity of smoking them, and the uncapping of honey attendant upon such a procedure; there is no need of receiving a single sting, and no danger of robbers. All that is necessary is to slip an escape board between

the super and brood chamber (say toward night) on each of the colonies from which you desire to remove the honey. The next morning you can take supers off the hives, practically free of bees, without disturbing the colony below, and, in fact, without using any smoke. Price, 20 cents each; \$2.25 per dozen postpaid.

DOOLITTLE'S SOLAR WAX EXTRACTOR.

Better than all artificial heat devices is a solar wax extractor. A good one will more than pay for itself in one season. Bits of wax and small chunks of comb, that invariably accumulate while working with bees, and are ordinatily thrown away, will be made to yield a profit, for it is no trouble to throw them into this extractor on your way to and fro through the apiary. Then, too, wax melted by the sun's rays will bring a higher price, for the action of these rays is to bleach as well as to melt it, and you will find it of a beautiful yellow color when cold.

Price each, \$4.50

PARKER'S MACHINE FOR FASTENING STARTERS IN SECTION BOXES.

With a little practice, the machine can be made to work very satisfactory. Price. 25 cents for our $4\frac{1}{2}x4\frac{1}{4}$ sections. By mail, 40 cents.
